The Team

Joycelyn Early, 70 year old adventurer, traveller and fun lover. Most recent challenge? "Boogie boarding in wild waves, when not so long ago I would not swim anywhere that my feet could not touch the ground!"

Joycelyn fell in love with Croatia way back in 2003, when she stayed in a seaside hotel in Makarska. Every outing was a total delight, but she missed sharing the experience with family and friends and vowed to return with them. She did so no less than 9 times.

She has been blessed to kayak to the Elafiti Islands, travel to the Southern islands and enjoy a 7 day boat trip to the Northern Islands. She has visited the Plitvice Lakes, the Krk National Park, with its cascading waterfalls and numerous towns, both ancient and modern. *"Ageless Adventure is just as it states....I bring with me the ability to travel, explore and have fun, no matter what age or stage of life I am in. I have a passion to share my love of travel and my experience of Croatia with others. I have chosen the islands of Solta, Vis and Brač as I believe they offer something for everyone—a touch of history, a load of sunshine, plenty of coastal or hillside walks, beautiful beaches, the fragrance of lavender and of course, endless fun on water! All against the backdrop of the magical blue Adriatic Sea".*

Tania Bownes, 58 year old adventurer, dancer and fun lover. Most recent challenge? "Taking up SUP boarding....staying upright with over 100 dolphins swimming around my board in Hout Bay. Doing yoga on my board in a rolling ocean..... challenging my core, yet having tons of fun too!"

Tania was born with an innate sense of play and adventure. She may not have travelled extensively in the wider world, but she has certainly explored South Africa /Africa, whenever possible. She brings to this Aqua Adventure her great love of water—having water-skied, windsurfed, done scuba diving, boogie boarding, white water trips and more from a very young age. She also brings her love of the "inner journeys" and has lead many women's retreats such as swimming with dolphins in Mozambique or entering extended periods of meditative silence. *"I so love exploring life, but I also love exploring my own and others' inner worlds. People are a great joy to me. Give me a group of people and I promise to awaken personal insights / awareness, as well as bring the lightness, the play, the fun to the experience., to balance the inner and outer journeys.....always choosing joy!"*
